I am a devoted 2nd year Computer Engineering student, that has a foundation in python programming, problem solving, data analysis, and logic. I have hands-on-experience in Python (Object-Oriented Programming), R for statistical computing and graph visualization, and Tkinter for creating a basic GUI Framework. I am eager to improve more in solving logic and designs, and learn more about complex programming. I am excited to apply my technical proficiency, skills on logic and designs, and my flexibility and adaptability in collaborative environment that will help me acquire more experience and skills.

EXPERIENCES

Make-10-game

- An interpretation of an existing app simple math game, that is also inspired by a math card game for kids to learn number pairs.

Python Exercises

- Assignments and practice codes using Python programming language.

EWA Glasses: Eye-Blink Sensoring Anti-Sleeping Glasses Equipped with Eyeblink Sensor, Vibration Motor, and Buzzer for Drivers and Students

- A 5-member capstone project wherein we executed a glasses that alarms the user whenever the sensors detects an unusual blink from the user.
- Used Arduino nano coding along with the use of other hardware electronic products like sensors and buzzers.

ICPEP-SE PUP Manila

- Active member of the Institute of Computer Engineers of the Philippines - Student Edition.

AWS Cloud Club – PUP

- Active member of the AWS Student Builder Group PUP.

EDUCATION

PUP Sta. Mesa | Bachelor of Science in Computer Engineering Sta. Mesa, Manila | 2024- Present

- Cumulative GPA: 1.59
- Affiliations: AWS Cloud Club – PUP and ICPEP-SE PUP Manila

City of San Jose del Monte National Science Highschool | STEM Strand CSJDM, Bulacan | 2018-2024

- Cumulative GPA: 94
- Affiliations: YES-O Club Member (Youth for Environment in School Organization)

SKILLS

- Python (Object Oriented Programming), VSCode, R, Tkinter GUI Framework, Git Github, AutoCad, Microsoft Office Suite, Breadboard Circuit

Additional Courses:

Relevant Coursework: Programming Logic and Design, Object-Oriented Programming, Computer Hardware Fundamentals, Data Structures and Algorithms, Advanced Engineering Mathematics, Operating Systems.
